

The Tikvah Program at Camp Ramah in Canada

Dear Ramah Canada Community:

For over 25 years, Camp Ramah in Canada has offered a residential summer camping experience for Jewish children with special needs. Ramah is committed to ensuring that campers with developmental disabilities have the opportunity to experience Jewish summer camp alongside their peers.

We work closely and collaboratively with parents and other team members (such as therapists and physicians) to help ensure a successful experience for every camper. Together with the camp medical staff, specially trained counselors and senior staff, each camper is actively supervised while receiving the "Ramah experience".

We can use your help. We are currently seeking ONE MORE MALE CAMPER and ONE MORE FEMALE CAMPER, ages 12-22, to fill our program. Please help connect us with families who may be interested
